

**Transform your backyard sanctuary
into a crystal clear, fresh water oasis.
Freshwater Pool Systems**

Imagine if the water in your pool was fit to drink?

With the world's best quality water on tap, Aussies appreciate the benefits of fresh water. Yet when it comes to our nation's favourite pastime, we've all accepted that chlorine and saltwater were the natural order of things.

Not anymore.

A breakthrough new system by Naked Pools can safely and effortlessly purify your pool water using 70% less chemicals than conventional chlorine, salt or mineral pools, while being a lot cheaper to run. Isn't that a refreshing change?

The benefits are crystal clear:

- | | |
|--|--|
|  No red eyes or irritated skin |  No need to wash swimwear or shower after use |
|  Perfect for asthmatics, psoriasis and eczema |  Longer lasting equipment and pool surrounds |
|  Up to 50% saving on running costs |  Recycle the water direct to your garden |
|  Far less chemicals than traditional systems making water balance simple |  So close to the natural balance of water, you could drink it |

Aussies are waking up to this fresh-thinking alternative to high chlorine, salt or mineral pools and they're diving right in.

Talk to us about the pure and simple way we can turn your backyard into a freshwater oasis.

THE FEATURES ARE ENDLESS

- TDS levels at record lows (800-1000ppm)
- Easy to use, multi-function digital display
- Reverse polarity self cleaning cell
- One button winter mode function
- Adaptable to work with external automation solutions
- Variable OXI and ION control
- Single button OXI Boost feature
- Electrodes constructed from highest grade titanium for longer life
- Designed & manufactured in Australia
- Internal temperature control reducing internal heat for longevity
- Digital interface with simple navigation
- Intelligent backwash mode steps you through the process from start to finish
- Pulse Width Modulation for smooth and controlled output
- Dual timers for both sanitisation and circulation of pool water
- Pump protection - auto cut off
- Retrofit any existing pool or spa

Freshwater pools - Swimming as nature intended™

The Naked System is made up of a digital control unit which supplies and manages current to the electrode assembly (OXI & ION Cell). Electrolysis passes through the copper and silver anodes, releasing the ions into the water. The silver disinfects the water controlling bacteria and the copper prevents algae growth. The minerals left in the water form a residual that continues to sanitise the water.
