LETTER MATCHING SYSTEM

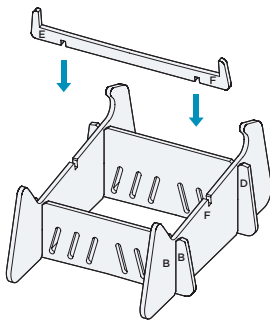

Look for an engraved letter near each slot on the enclosed riser pieces. Always match up coordinating slots (A+A, B+B, etc.) to ensure proper assembly.

Before you begin ensure your Chaise Deep is properly filled with water according to the Chaise Deep installation instructions received with your original shipment. Lost your installation instructions? Contact us at info@ledgeloungers.com

STEP 1: ASSEMBLE RISER BASE

Align the matching slots of the sidebars and bottom crossbars and slide the pieces together. Continue until all 4 pieces of the base are assembled as shown above. The side with the letter engraving should face outward.

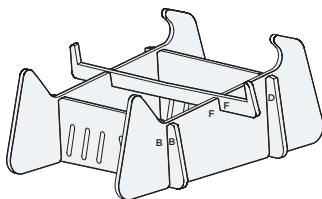

STEP 2: INSERT TOP CROSSBAR

Align and insert the matching slots of the top crossbar with the remaining upward facing slots of the base.

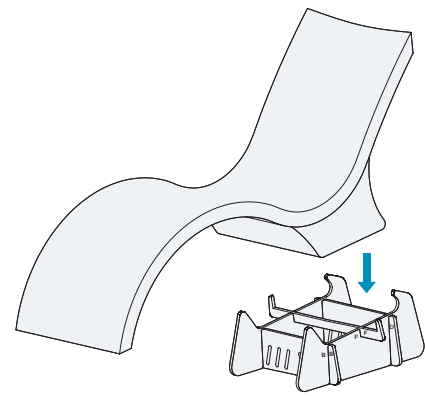

STEP 3: SECURE RISER PIECES

Ensure all pieces are secured by pushing each slot until the pieces are flush with one another. Some movement is okay and will even out once assembly is complete.

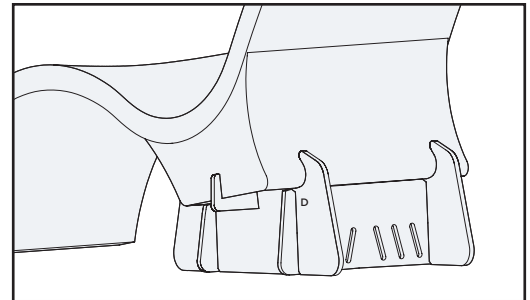

STEP 4: INSTALL RISER

Carefully pick up the riser and place on your pool's ledge in the desired location of your Chaise Deep. The tallest edge of the riser is the back.

STEP 5: INSTALL CHAISE DEEP ON RISER

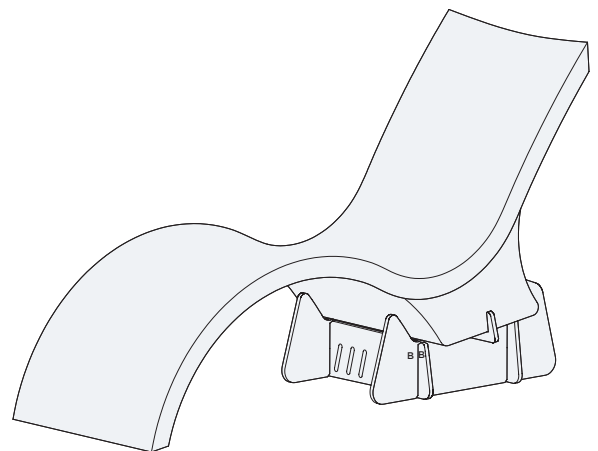

Lift the back of the Chaise Deep and position the platform of the Chaise Deep on the riser. We recommend using two people for this step.

properly secured riser and Chaise Deep

STEP 6: FINAL INSTALLATION

Visually check that the Chaise Deep is centered on the riser and both sides of the seat are inside the hooks of the top crossbar.

Sit back and relax! Take a photo, share it on social media, and tag
