# MyDolphin™Plus
BlueTooth Connection

When you log in for the first time, you must:

1 Create/connect user via **3 options.**

2 Find your robot
(by scanning the QR code
OR looking for it manually)

3 You will then have a page
requesting the "Go online"
➡ Press "Go-Online"

First option:

**4** Press on "**Choose network**", then press "**Back**", Then you will see the later button appear.

5 Press "**Later**".

**6** Press "**I'll skip it for now**" (Steps 6 & 7 on the 1st option)

Second option:

**1** Click on "**I can't find my Wi-Fi network**"

2 Then on "**Change to Bluetooth connectivity**", and **OK**

3 if nothing happens, just press the "**Home**" button on your iPhone and reopen the application, you will have a button "**Later**", you click on it, then "**I'll skip it for now**"

4 The application will open normally, and you will have access to all the features.

You are connected in Bluetooth, as indicated on the logo.

always connected
